Re: Medical Alert Information for Allergy/Anaphylaxis

Dear Parent(s)/Guardian(s),

The Hamilton-Wentworth Catholic District School Board has revised the HWCDSB School Health Procedures: Allergy/Anaphylaxis Plan as of September 2018. As primary caregivers of their child, parents are expected to be active participants in supporting the management of their child's medical condition(s) while the child is in school. The following forms are being sent home to ensure the management plans at school are current and comply with these new procedures.

- 1. Appendix A: Annual Parent(s)/Guardian(s) Request and Consent for Allergy/Anaphylaxis Intervention (to be completed by parent(s)/guardian(s) annually)
- 2. Appendix B: Physician Authorization for Administration of Medication for Anaphylactic Reaction (when school is first informed or if information has changed)
- 3. Appendix C: Individual Allergy/Anaphylaxis Plan of Care (to be completed by parent(s)/guardian(s) annually)
- 4. Provide a minimum of two (2) up-to-date medications (ie. epinephrine auto-injectors). Arrange to have one (1) epinephrine auto-injector on the student's person (ie. in a fanny pack) at all times (a backpack is not acceptable); and one (1) epi-pen to be stored in the office.
- 5. Allergy/Anaphylaxis Management Plan Waiver must be signed it you decide that your child:
- a) will bring only 1 epinephrine auto-injector to school;
- b) will not carry their epinephrine auto-injector on them during the school day;
- c) will not sit in a designated seat close to the bus driver while riding the bus;
- d) will have an alternative plan regarding their emergency allergy/anaphylaxis.

Please return the following completed package with signatures as soon as possible. If you have any questions or concerns, please contact Mr. Menegazzo at 905-523-2468.

Thank you for your continued cooperation and support.

mola.

Sincerely,

Mr. B. Condari

Principal

Mr. R. Menegazzo

Allergy/Anaphylaxis Management Plan

Waiver
Dear Parents/Guardians of
As you are aware, the Allergy/Anaphylaxis Management Plan of the Hamilton-Wentworth Catholic District School Board requires that:
• the parents/guardians of a student, who is at risk to have an anaphylactic reaction provide the school Principal/Designate with two (2) epinephrine auto-injectors for the use of their child while s/he is attending school;
<ul> <li>please note that parents/guardians are advised that if they authorize their child to NOT carry an epinephrine or allergy medication on his/her person at all times, their epinephrine and allergy mediation may not be accessible or available;</li> </ul>
<ul> <li>the child, who is at risk to have a anaphylactic reaction has one (1) epinephrine auto-injector on her/his person while at school, on the school bus or while participating in school sponsored activities away from the main school campus;</li> <li>the child, who is at risk to have an anaphylactic reaction sits in a designated seat close to the bus</li> </ul>
driver while riding the school bus;
It is my understanding that (please check which applies):
_ you wish to provide the school Principal/Designate with only one (1) epinephrine auto-injector for your child's use;
you do not agree to have your child carry one (1) epinephrine auto-injector on her/his person;
you do not wish to have your child sit in a designated seat on the school bus close to the bus driver;
I would ask you, therefore, to complete the form attached to this letter waiving one or more of the above requirements and return it to me in the enclosed envelope as soon as possible.
<u> </u>
